## Profile

---

A driven and detail-oriented IT student demonstrating proficiency in full-stack development and IoT applications. Possessing a proven ability to adapt swiftly to new challenges, I excel in collaborative environments and am committed to clear and effective communication within project teams. My passion lies in developing innovative technology solutions to solve complex real-world problems.

## Education

---

- **Vignana Bharathi Institute Of Technology** 2022 – Present  
CGPA: 8.85 Hyderabad
- **Narayana IIT Academy** 2020 – 2022  
Percentage: 98.1% Hyderabad
- **Narayana E-Techno School** 2019 – 2020  
CGPA: 10.0 Hyderabad

## Projects

---

- **Centralized Hospital Management System** [View](#) Aug 2025 – Present
  - Developed a full-stack system to manage doctor schedules and bed availability across multiple hospitals
  - Implemented secure role-based authentication for admins and users
  - Enabled real-time data updates to improve operational efficiency and patient management
  - Designed a scalable architecture for handling multi-branch hospital data
- **Smart Wheelchair Integrated with AI and IoT** [View](#) Apr 2025 – Jun 2025
  - Built an AI-powered wheelchair with voice and gesture control for enhanced accessibility
  - Integrated IoT sensors for real-time monitoring of health vitals and location tracking
  - Implemented obstacle detection system to ensure user safety
  - Improved mobility and independence for differently-abled users through automation
- **AI Trip Mate** [View](#) Nov 2024 – Dec 2024
  - Developed an AI-based travel planner to generate personalized itineraries
  - Automated destination selection, route optimization, and budget planning
  - Integrated real-time data for suggesting accommodations and local experiences
  - Enhanced user experience by providing a seamless and interactive travel planning system

## Skills

---

**Languages:** C, Python, JavaScript

**Web:** HTML, CSS, Node.js, Express.js

**Databases:** MongoDB, MySQL

**Query Language:** SQL

**Tools:** GitHub, VS Code, Figma, Excel, PowerBI

**Soft Skills:** Communication, Quick Learning, Logical Thinking, Client Coordination, Team Collaboration

## Certifications

---

- Microsoft Azure AI Engineer Associate [Link](#)
- ServiceNow Micro Credentials

## Achievements

---

- Runner-up in DesignX (Figma) conducted in college
- Top 5 finalist in Udhgam Hackathon at Woxsen University (National Level)
